

## Global Energy Architecture Performance Index 2013

### Full table of rankings

The table below shows the rankings for each of the separate components of the energy triangle (economic growth and development, environmental sustainability and energy access and security) and the Energy Architecture Performance Index (EAPI) 2013 overall ranking. All scores are between 0 – 1.

| Country / Economy | Economic Growth and Development | Environmental Sustainability | Energy Access and Security | EAPI 2013    |               |
|-------------------|---------------------------------|------------------------------|----------------------------|--------------|---------------|
|                   |                                 |                              |                            | Overall Rank | Overall Score |
| Norway            | 0.67                            | 0.63                         | 0.95                       | 1            | 0.75          |
| Sweden            | 0.58                            | 0.76                         | 0.80                       | 2            | 0.71          |
| France            | 0.58                            | 0.75                         | 0.78                       | 3            | 0.70          |
| Switzerland       | 0.73                            | 0.58                         | 0.79                       | 4            | 0.70          |
